

IREL'S MATERIAL SUPPLY POLICY

Quantity of production of various products of IREL is fixed based on Mining Permits, Environment Clearance, Consent to Operate and other statutory clearances. Being bulk products, the expected production is tied up with customers well in advance. Advance information with reasonable time period would be required to take up fresh commitments depending upon the afore mentioned factors and subjected to capacity expansion, etc.

IREL can take up supply to new buyer subject to:

- The priority to meet full requirement of DAE constituent units.
- Supply to Domestic industry for direct consumption, who have been patronizing IREL material on regular basis for past few years.
- New customers will be entertained only if material is available after meeting the above requirement.
- New unit desirous of sourcing material (Garnet tailings) in bulk from IREL for reprocessing shall be considered through tendering process in case no prior allocation.
- Units whose demand is not registered, will be entertained for material linkage on obtaining approval by IREL for increased production.

Canvassing in any form for seeking material may lead to disqualification / blacklisting.
